

THE SCENE:

After the World Music Awards, you have been invited to the “Entertainer of the Century” Dwayne Starr’s after party!! This exclusive party is taking place at Dwayne’s private mansion overlooking Starr Lake. Only those close to him are invited to this VIP event.

THE GUESTS:

Dwayne’s PR/band manager KiKi Martini is hosting the party- other guests include his longtime hairstylist, a few other world-famous musicians, his disgruntled sister, some groupies who can’t get enough of Dwayne Starr, and of course the inevitable paparazzi who are always lurking nearby.

THE MURDER:

Shortly after the party begins, a loud noise is heard from outside – that’s when PR manager Kiki Martini finds Dwayne Starr’s lifeless body beneath the mansion balcony.

Who would’ve killed the biggest music star in the world? More importantly, WHY? Was it his hairstylist, who we find out was fired just minutes before the award show? Was it one of his groupies, jealous of who Dwayne spends his nights with? Was it an old has-been musician, angry of being replaced by this young star, or perhaps a current rising star who wants Dwayne out of the picture? Do the paparazzi know more about Dwayne’s personal life other than their pictures show?
